## Pemberton Wine Region Book

PEMBERTON WINE REGION WESTERN AUSTRALIA is the first photographic book to be published on this emerging cool climate wine region. This pictorial collection explores the region's history, unique landscape and surrounding national parks, its karri forests, rivers, inland dunes, coastline and tourist icons. Within this context, twelve selected vineyards are showcased providing an insight into their relationship with their environment and how it influences the regional characteristics of their wine along with harvest and vintage activities. A quality memento for all those inspired by Pemberton's beauty and who have an interest in Australia's emerging wine regions. Over 120 images, 275mm x 255mm, 144 pages, hardcover, RRP \$49.95.

*"simply outstanding examples of the landscape genre" Australian  
Photography Magazine, July 2009*

*nominated for a wine book category of the Gourmand World  
Cookbook Awards, 2009.*
